

Disability services.
Putting you first.

On May 2 we had a meeting

A meeting is where a group of people get together to talk about things.

This meeting is called our **Human Rights
Advisory Committee meeting**

This is what we talked about

Supported Decision Making

We want you to be able to make your own choices.

Aruma is doing a project

- We want to create a framework
- Make more things to help supported decision making
- Hold workshops with Aruma people

Some people in the project are from

- The Human Rights team
- The Quality Safeguards and practice team

Inclusion project

We want you to be part of your community

We want you to know what is going on in your community

We can all teach the community how to be better at including you.

We looked at our **Human Rights Policy** and we need to make it better.

A Policy tells staff what to do at Aruma.

We think it needs to tell us why Aruma is a Human Rights Organisation

We spoke about our next **Human Rights Conference**.

A conference is a big meeting with a lot of people

It will be on the Gold Coast in November

We have a space on the **Aruma website** to talk about human rights

Aruma people spoke about **Artificial Intelligence (AI)**

There are a lot of apps on the internet to help make things better for people

We need to make sure we are safe when using AI.

NDIS Support Coordinator may change to a **Navigator role**.

NDIS thinks it will make things easier for people.

The committee will write a letter to the Minister and the NDIA to tell them what we like and do not like about this.

Our next meeting is on Friday August 1

Thank you for reading
